COTTON MARKETS

Strength in July Has Effect on Entire List-Weather in Belt Is Favorable.

Tuesday Afternoon, July 13. History in a small way repeated it self today, when some of the shorts given such prominence. The market a steady one, but failed to develop for ness enough to go up much and in reality it was a marking time affair. At the close the list in New York was steady and 65 points up to 23 down while New Orleans left off 3 points up to 13 down

while New Orleans left off 3 points up to 12 down.

Liverpool temorrow morning should come 4 to 7 points to the good.

In the foreign center this morning the market was without particular change and at the close options were from a point up to 6 down. Private cables did not bring any special information, although some advices are a bit more encouraging as to conditions in Manchester. Spots were marked up 14 points, fully middling to 26.68d, with sales 1.00 bales, including 2.000 American. Receipts for the day were 7.000 bales, including 4.500 American. Manchester advised that cloths were quiet and yarns dull and irregular.

vised that cloths were quiet and yarns dull and irregular.

The weather over the belt during the past 24 hours was less favorable to bed weevit activities and indications this morning were not quite so encouraging for more showers, although barometer lines were not settled by any means. Weevil damage continues to be largely prospective, but the market is disposed to act slowly on it. The weekly surfmary tomorrow is expected to be a fairly good one, but traders are disposed to await its coming, it being due at 10 eclock local time. The cropaside from ravages of this pest, is doing well, according to all reports and it must be overcoming some of its lateness.

it must be overcoming some of its lateness.

The July position started at 39 80c and in a short while touched 40-, which helped give firmness to the ontire list, but failed to stimulate much buying. October touched 35.47c and July 40.40c, then came a slight recession.

In the spot department business continues very light and quotations were as a rule without change. Sales were the lightest of any day recently. The census department's report on June consumption will be issued tomorrow, but is not expected to be much of a factor. Trade accounts continue to relate that short time is on or is contemplated, due to cancellations and reduced buying

NEW YORK COTTON.

NEW YORK COTTON.

NEW YORK, July 13.—The feature in the cotton market at the opening this morning was the continued strength of July contracts, which sold to the 40-cent level right after the call, or the highest prices touched since last April and 35 points above hast nights does ing quotations. Three more July notices were reported in circulation but there were very few contracts for sale. Later months opened steady at a deciline of 7 points to an advance of 2 points, but were influenced by the near month a strength, selling about 2 to 7 points to an advance of 2 points, but were influenced by the near month a strength, selling about 2 to 7 points to the selling about 2 to 7 points by the selling about 2

or 63 points not higher and a new high record for the season. This led to renewed covering in the later months, which sold some 3 to 7 points above last night's closing figures, with October touching 33 42c and Dec. 31,75c. General business remained quiet, however, and the market was a few points off from the best around midday under realizing.

off from the best around minday un-der realizing.

After selling at 40.40c for July and 31.10c for October, or 75 points ne ber on the spot position, and 5 to 12 points higher on new crop months the market was quiet but held fairly steady during the middle of the after-toom.

say the authorities, and is the only alternative to avoid shutting it down.

ABUNDANCE OF GRAVEL

CORINTIL Miss., July 13, (Spl.)-Alcorn county need not go outside of

its own limits for any amount of the best road building materials known. This is a statement of E. Malcom Jones of the United States soil survey, now at work in the country.

In speaking of the unrying kinds and substantial qualities of this unsterial Mr. Jones stated that is was the finest he had found at any place in Missingliph during his past ton years of soil surveying in the state. And he further stated that it was not confined to any particular locality, but was distributed throughout the country this making it rastly ovailable with the trucks now being operated by the country.

New York - Russells News wires that he Itellish accepted all offers of wheat ade overlight unde overflight
Chicago —A very reliable authority in
the Northwest wires from Minneapolis"Our rist damage reports are confined
to territory in South bakods and Southtern Minnesota that have had excessive
rains. We have canvassed the territory
chistic carefully and our find no extdiace of black rust in wheat."

Stocks.

New York.—There is nothing in the news to account for the weakness which developed in the stock market. The prevniling conditions are well understood and only explanation is that tradicits resilize that he change his occurred, there was no change in money for the better and there is no change in money for the better and there is no change in homoses for the better the attrady been ordered by some important establishments and offices are seen to follow his, in my optation, is the leading from the at the present time. Districts recording rather than expanding—Ettelon to Clark & Co.

New York—Authentic private advices New York Authentic private advices adjuste that reports of impending hutdowns of steel mills, because of

ar shortage, are exaggerated. Yester av a weakness in the industrial lis

was largely due to the reports.-Hens-

New York.—If I am any judge the boying of stocks is better than the selling this morning. The crowd that is operating in the low priced rails. I selleve, expect to make a big turnover and there is considerable room, for expansion of such insues as Missouri Pacific, Rock Island, Prisco and Southern Railway. Equipment stocks are acting better. American Locomotive looks to be in a particularly strong position—Hensley to 8. & G.

New York.—Talk continues to be bul-

New York.—Talk continues to be bul-ish on the railroads especially Reading and Southern. In the latter there is said to be a strong pool. Selling of adustrials yesterday was rather over-lone.—Wollman to McFall.

done.—Wollman to McFall.

New York.—Washington dispatch says it is the general opinion of federal reserve board members that the new policy of conservatism is being followed conscientiously by the banks and is successful in reducing inflation. Whether further action will be taken by the board to attain that result it was said today will depend upon whether the banks continue to follow the policy of conservatism outlined by the board. Although the banks, members of the federal reserve system, and bank customers have asked for a definition of an essential loan, the appeals for a definition are destined to go unpresent the same conservation of the federal reserve system. for a definition are destined to go un-unswered. It is the position of the fed-eral reserve board that such a defini-tion sufficiently broad to cover bank-operations in all districts is impossible by reason of the varying conditions in each district.—Hensley to S. & G.

New York.—A great deal of selling to-day has been on the Poland situation. —F. & B.

New York.—Understand from good authority that Pan-American has brought in the biggest well they have ever had and the insiders are huying the stock on this information.—Delaney to Clark & Co. DOW-JONES SUMMARY.

NEW YORK, July 13.—International Sickel declared regular quarterly \$1.50 lividend payable August 2 to stock of dividend payable August 2 to stock of record July 22.

Allies demand two million tons coal monthly from Germany and answer must be in Wednesday.

Cox and Roosevelt to make country-wide tour beginning about Aug. 1 with league of nations chief issue.

President Clark, of American Exchange National bank, returned from two months' tour in Far East, reports steel plants, textile mills and shipyards sooming.

31 reports surplus after charges of \$1,233,036 against deficit of \$590,916 in preceding quarter and deficit of \$660,-169 in same 1919 period. Local banks prepared yesterday for withdrawal by government of \$11,000,006
n this district today.

LOUISIANA SUGAR AREA IS 8 PER CENT LARGER

NEW ORLEANS, July 13.—The area planted in sugar cane in the Louisiana belt this year is eight per cent above that of 1919, or 285,120 acres, according to an estimate made public today by Lionel L. James, agricultural statistician at New Orleans of the United States department of agriculture.

The condition of sugar cane, according to reports hearing an average date of July 1, is estimated at 74 per cent of normal compared to 75 per cent June 1, 1229, and 63 per cent July 1, 1919, and a nine-year average of 83.7 per cent. A condition of 74 per cent on July 1 indicates a probable production of 2,609,151 short tons of cane, or 178,295 short tons of sugar against 121,600 last year.
